

# APPALACHIAN FOREST

NATIONAL HERITAGE AREA

## **Project: Start an Egg Carton Pollinator Garden**

### **Materials:**

Egg carton (can use any number of cells)

Potting Soil

Pollinator Garden Seeds

Waterproof Tray (you can use any lid that it will fit in)

### **Directions:**

- 1) Cut Egg Carton to desired number of cells
- 2) Add potting soil to each cell about  $\frac{3}{4}$  full
- 3) Sprinkle a few seeds in each cell
- 4) Place in a water proof tray in the sun and water (keep it just damp)
- 5) Once the weather is nice and your plants have sprouted you can plant the whole egg carton outside
